About Fixxon...

Identifying residents' individual garments is a big challenge in any care home. The Fixxon button system helps to solve this issue, making labelling clothes easy and efficient.

The small buttons, marked with either a resident's name or room number, are simply attached using the specially designed Fixxon toolkit. The unique attachment and printing system (patent pending) is designed to be comfortable and discreet on all items of clothing. The buttons are able to withstand the extreme temperatures and chemicals encountered during the laundry process.

Most importantly, once in place the buttons are completely smooth and do not irritate the skin.

"I'm really pleased with the buttons. I don't even notice them, and my clothes aren't getting lost any more."

Brenda Parker, resident at Oakhaven, Cheltenham

Current practice...

Traditionally residents in care homes would have their clothes labelled by their families. However, the common methods of marker pen and iron on names wash off very quickly in a care home laundry and sew-on labels are very time consuming to attach.

Ensuring that the correct clothes are returned to their rightful owners is extremely important for residents' comfort and dignity. This is a primary concern for any family and well run care home. Using the right labelling system also prevents unnecessary expense in replacement garment costs.

How to order...

Simply fill out the order form making 4 simple choices.

- Either name or room number
- Number of buttons required (we recommend 50 initially)
- Choice of 6 colours
- Delivery to care home or personal address

Please liaise with your care home on these choices to ensure that the Fixxon buttons you are ordering work with the system they have in place. (Some homes prefer to use room numbers, and may have designated colours for different areas of the home.)

Upon completion of the form, fill out payment details and send to Fixxon. Your order will be processed quickly and despatched within 2-5 working days.

"Identifying residents' clothes has always been a big challenge for us. Since introducing the Fixxon labelling system, sorting laundry has become quick and easy. Residents are much happier now their clothes are not getting lost."

Katrina Davies, Housekeeper at College Fields, Cardiff
